Relay Docs

BIOS 2026 · FRONTIER track · Problem 09

A doc editor that works with no internet.

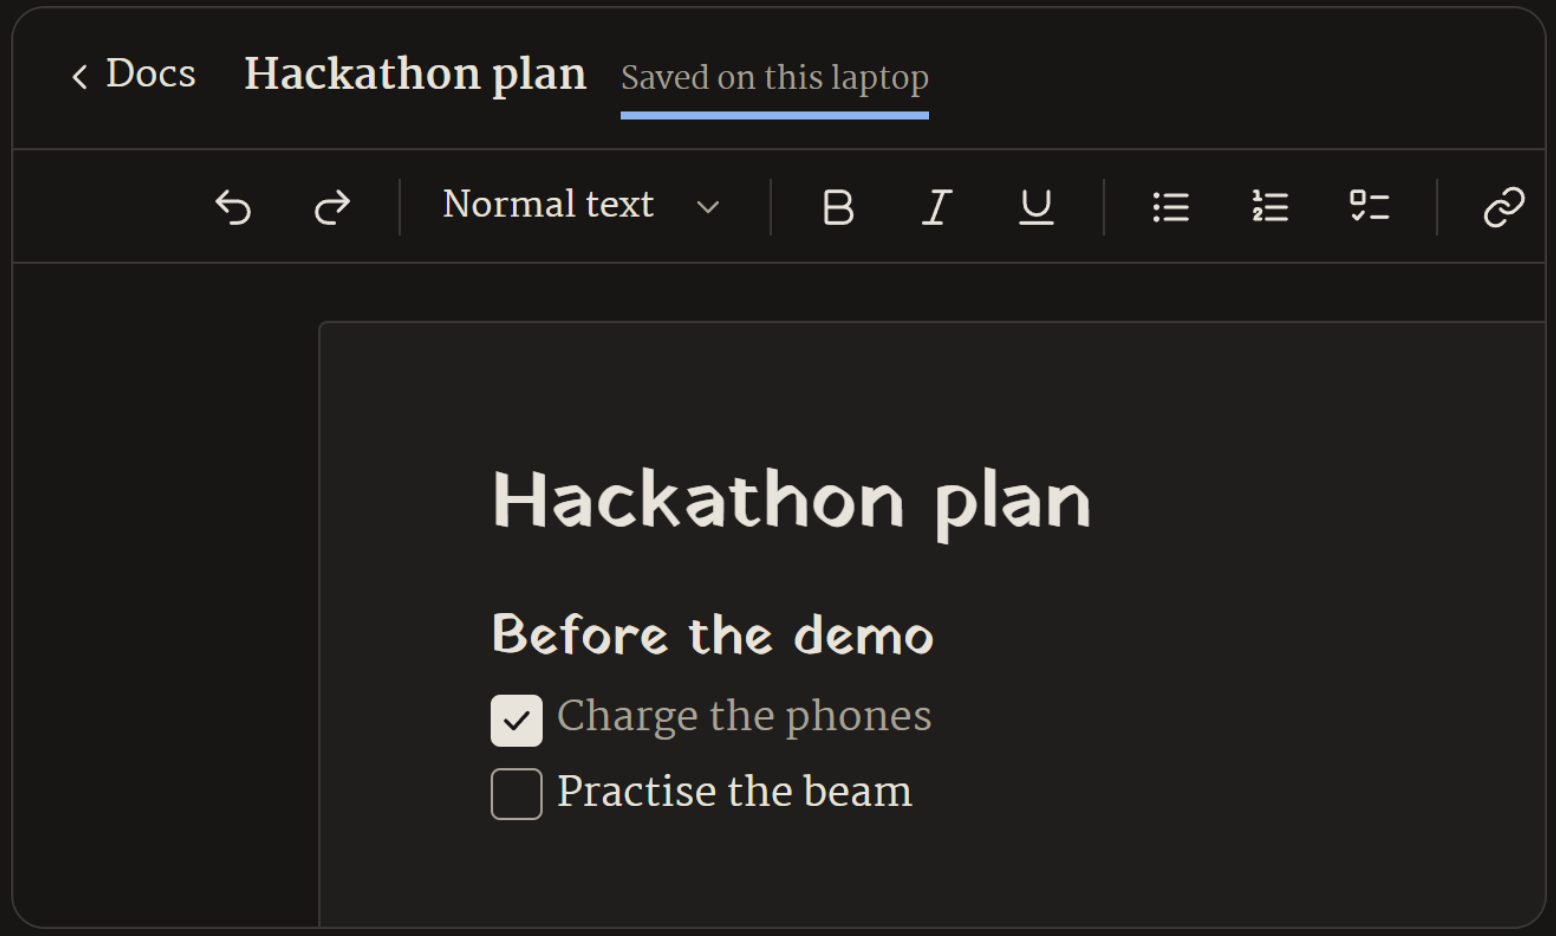

Shared docs break when the signal drops

Someone has to merge them by hand.

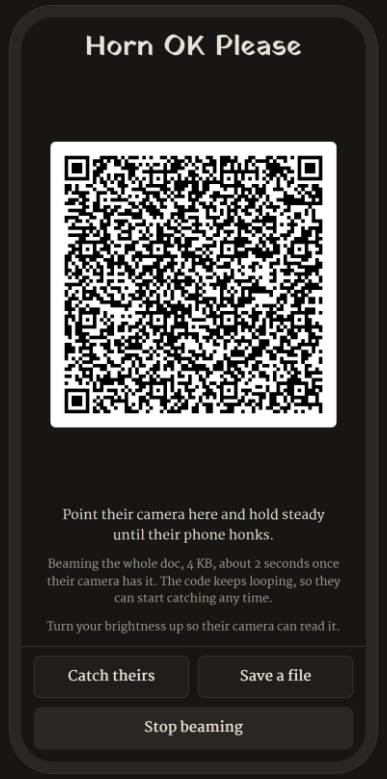

Write anywhere. It saves on your device.

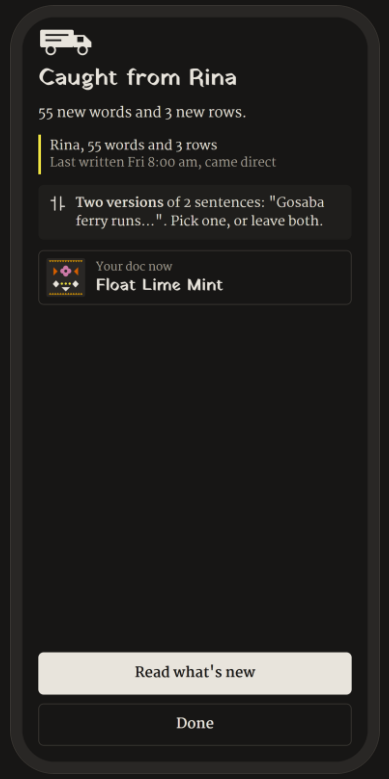

No account.
No server.
No internet.

Headings, checklists, tables, undo.

How it works

Beam

QR codes, camera to camera

Merge

One fixed order everywhere

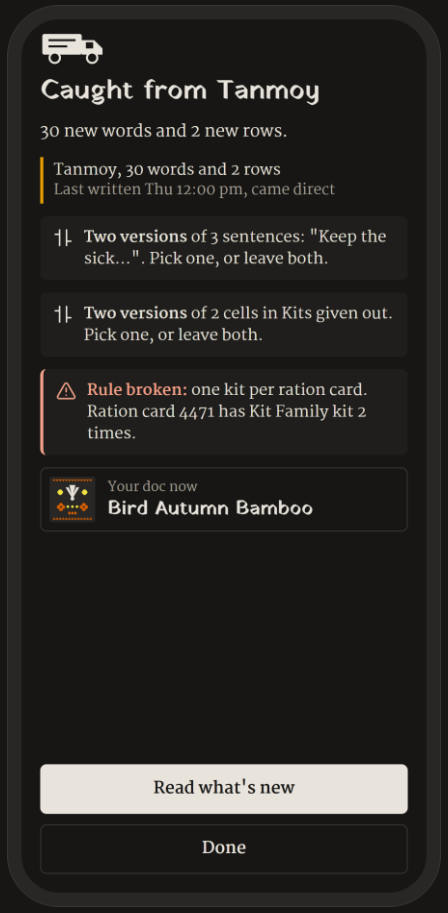

Check

1,000 orders, one fingerprint

Relief camps: nothing lost, nothing given twice

Both versions kept

Kit given twice: caught

Anywhere the signal drops

Who's caught up

No one else has everything you have yet, as far as this phone knows. 4 others have the doc.

- **Rina**
  Fri 8:00 am, came with the doc
- **Asif**
  Thu 4:00 pm, direct
- **Tanmoy**
  Thu 12:00 pm, came with the doc
- **Meher**
  25 Oct, 6:16 pm, direct

Village clinic

Who has the latest

- (•) **Keep the newest one**
  Written latest, by the writer's own phone. Not "arrived last".
- ( ) **One person's version wins**
  For example Base camp first, then the person who started the doc.
- ( ) **For numbers, keep the smaller one**
  Safer for stock left: never count what you don't have.

Survey team

Pick how clashes settle

Rules

Spending stays within 5000
Kept right now.

Truck back

Wish Deer Kiwi
01 · Same words on another phone means the same doc.

School trip

Same words, same doc

We found no one doing all three

	Works offline	Needs no server	Two edits to one line
Google Docs	Partly	No	Unclear
Dropbox	Yes	No	Makes a copy
Ditto	Yes	Yes	Newest wins
Relay Docs	Yes	Yes	Both kept

Who needs it

About

10 lakh

village health workers

About

10,000

villages with no signal

India, 2025

65

internet shutdowns

We'd charge teams, not people

Free

Anyone. Every feature.

Yearly fee per team

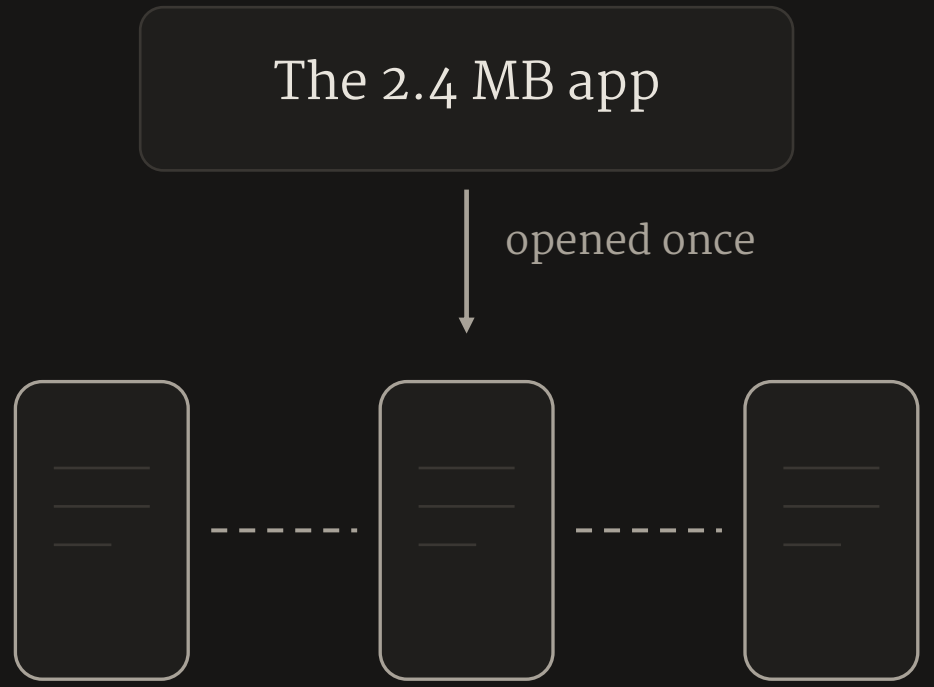

Set-up, training, support

No servers to pay for

Today

0

rupees a month to run

Docs go phone to phone

What's next

Now

Test on many real phones

Next

Pilot with one relief team

Then

Add a health register template

Any doc, any order, no signal.

Relay Docs

The team

ranvir7123.github.io/phir-milenge

Open it once with internet.
After that it works offline.
